About Me

I am a skilled Frontend Developer specializing in React.js, Next.js, and Tailwind CSS, with experience in building dynamic and responsive web applications. I focus on clean code, efficient state management, and seamless integration with backend services. My expertise includes REST API handling, UI/UX optimization, and scalable component-based architecture. With a strong passion for modern web technologies, I aim to develop high-quality, performance-driven solutions that enhance user experience and meet business needs.

EXPERIENCES

Front-end Developer

- HTML, CSS, JavaScript, React.js, Tailwind CSS, Bootstrap
